## NEW PLANT

WEST CANADIAN COLLIERIES CO.  
MAKING IMPROVEMENTS

### NEW TIPPLE

When Completed Will Take Four Times

as Much Coal as the Present

Tipple.

The West Canadian Collieries

company which operates mines at

Lille and Bellevue is opening a

new mine at Blairmore, has well

under way the construction of a new

operating plant at its Bellevue col-

lieries, which, when completed, will

constitute probably the finest coal

mining equipment yet installed in

the west. The plant will include

the most modern appliances for the

extraction and mechanical handling

of coal, and will be an operation

capable of putting to put on the

surface two thousand tons of coal

per eight hour shift. The improve-

ments complete will entail an ex-

penditure of approximately \$250,000.

In detail the plant is to consist of

a power house, steel tipple and equip-

ment with scales and box car loader,

steam pump house, a modern wash

house and machine shops.

The power house, which is of stone,

will be 42 feet by 96 feet in dimen-

sions for the accommodation of boilers

and engines. The boiler room

will contain two 160 horse power

boilers with room for two more of

like capacity. The engine will be a

150 K. W. engine and generator with

direct connection.

The tipple plant will be all of steel

on masonry foundations. The dump

will be what is known as the Green

N. 4, a double track tipple on which

the loaded mine cars run to the

dump and are tipped automatically,

the empties running back on a sepa-

rate track, the entire work being

done by machinery. The tipple will

be equipped with an elaborate screw

conveyor with gravity screens and

pickling tanks forty-eight feet in length.

For the loading of box cars, the Christy

loader will be installed.

For the accommodation of the new

facilities a new railroad yard is being

put in which will include 8,000 feet

of sidings. There will be two tracks

in the upper yard for empties and

three in the lower for loads giving

accommodation for sixty empties and

seventy five loads. The company is

also double tracking the pit mouth in

anticipation of the increased output

when the plant shall be in operation.

When operations with the new

plant begin, the company will put on

the market, six grades of coal, run of

mine, slack, egg, lump, special lump,

and depermented run of mine, thus

being able to supply any character

of coal the market demands.

With the present handling facilities

the company is shipping an average

of 1200 tons a day from the

Bellevue mine. With the new plant

the tonnage will be greatly increased

while No. 2 mine on the upper floor

of the same seam as No. 2 is being

opened up and within six months will

add to the daily output at least 500

tons. The entry of No. 2 is now in

about 500 feet and shows a splendid

quality of coal. The coal from this

opening will be dropped to the main

entry of No. 1 through chutes and

handled over the new tipple.

It is expected the new plant will

be in operation by the first of the

year and that within a very short

time thereafter the Bellevue mine

will be sending an average of 2000

tons of coal a day to the market.

## JUDGES GIVE RACE TO INDIAN

The mix up over the Thanksgiving

Day Marathon race at Coleman, arising

from the fact that J. Knowlton,

the Indian, was treated as a profes-

sionalist, has at last been settled and

the final decision of the judges

awarded giving the race to Knowlton.

As has been previously stated, the

other entrants in the race protested

Knowlton on the ground of profes-

sionalism before the race was run, but

the Indian ran and won from An-

drew Miller of Blairmore by 39

seconds. The judges, O. E. S.

Whitcomb, of Wolsome, and Mark

Drummond, of Frank felt it incumbent

upon them to entertain the protest,

as in support of it, affidavits were

filed in which it was charged that on

June 18th, 1908, the Indian ran for

money and in professional company.

Following the filing of these affidavits

the judges reserved decision until

the matter could be passed upon by

the Alberta Amateur Athletic Associa-

tion. Yesterday a letter was re-

ceived from Secretary Ballantine of

the Association advising that the

Association had not until September 1st,

1908, and that on that date all

athletes in the province were de-

clared amateur. As no showing was

made that Knowlton had become

professional, since September, 1908,

the judges have rendered a decision

giving Knowlton the race and Miller

second. But, the paying of which

was ordered held in abeyance in the

meantime, will be paid in accordance

with his decision.

Smith's Lumber Co. arrived here

on Thursday last to take out props

for the Bellevue mine, and Mr.

Dicotte has the contract for supply-

ing props for the Lille mine.

Constable Lee of the R.N.W.M.P.,

has been transferred from Lille to

Macleod. Constable Manson being

left in charge of Lille.

Born, on Oct. 30th, to Mr. and Mrs.

J. M. Williams, a son.

NOTICE

NOTICE is hereby given that in

accordance with the provisions of the

Irrigation Act, The West Canadian

Collieries Limited have filed the

necessary memorial and plans re-

quired by sections 13 and 15 of the

said Act, with the Commissioner of

Irrigation, at Calgary, Alberta.

The applicants apply for the right

to divert three (3) cubic feet of water

per second from Lyon Creek on the

north west quarter of section 26,

township 7, range 4, west of the 5th

Meridian, for industrial purposes and

for the right to construct the neces-

sary works as shown by the memorial

and plans filed to enable the water

so diverted to be used for the said

industrial purposes in their coal

mines and coke ovens.

The undermentioned lands are also

affected by right of way for the pro-

posed works, viz: the said north

west quarter of section 26, the north

east quarter of section 26, the south

east quarter of section 26, all in

township 7, range 4, west of the 5th

Meridian.

## LLOYD-GEORGE IS A SOCIALIST

Ever since Lloyd George uttered his Limehouse and Newcastle speeches, the moderate Liberal members have stood somewhat aloof from him. His speeches, to say the least, were socialist and communist, which do not appeal to the average Briton. The average Briton is too practical and solid to be lured by any utopian ideas into voting for anything that is so untried.

The truth of the matter is, Lloyd-George expects to be premier in five years and this alliance with the socialists is only a political step in that direction. Already there has been a decrease in the revenue derived from the new budget and the permanent passing of the present budget may bring disastrous results.

A protective tariff will spell ruin to Germany and may cause hostilities. But this is the only alternative to the Lloyd-George budget. A protective tariff has built up the United States and Germany and should relieve the British tax payer considerably. As Britain is Germany's greatest market the British government will be able to reap a tremendous revenue from the German customs. At all events the British tax payer cannot forever pay taxes as he is doing now.

### Editorial Notes.

The first snow catches you on the heel.

Steady improvements mark the progress of Frank's mine.

Why not macadamise Dominion avenue.

A few more houses please.

The Clarendon Review states that the Hon. W. A. Buchanan is the leader of the Southern Alberta Liberals. The Frank Paper is glad to hear it. Come to the Rocky Mountains, Mr. Buchanan, and do your duty.

The road from Frank to Coleman is an eternal disgrace, yet it gets about as much consideration as an abandoned slag pile.

The Christmas number of the Frank Paper will be well illustrated and comprehensive. It will be in keeping with Frank's progress.

The Frank Paper does not have to run road races, issue specials and offer premiums to gain subscribers. People take it because they want a good article.

The Cowley Chronicle is a splendid farm paper, some of the farm papers are endeavoring to club with it. So far they have been unable.

Blairmore people are seeking annexation with Frank, they admire our style.

McBride is dangling a bonused and subsidized railroad before the people of British Columbia. It is not every railroad scheme that glitters.

It is rumored that Charles Macnab O'Brien will hold a series of meetings before he goes to Edmonton so as to more correctly represent the people's views rather than his own.

This paper will publish every week during the sitting of the house a synopsis report of the speeches of our representative.

The following list comprises a few of the waste of this constituency:—  
A wagon road.  
Telephone connection with B. C.  
A district court house.  
A district goal.  
More bridges.

The Michel Reporter changed hands this week, becoming the property of the Foothills Book Print and News Company, Limited. May it prosper.

O. E. S. Whiteside had a strenuous time in making an award in the Coleman Miner marathon race but he did well.

There is no way of improving place so much as by encouraging good merchants, good schools and good people to settle among you, and this cannot be done unless you spend your money at home.

## S. J. WATSON

Druggist

## LUMBERJACK IN TROUBLE

Frank Chapman, until recently a teamster employed at the logging camp of Wm. Beard, south of Blairmore, has been sent to Macleod to await trial on a charge of forgery. It appears that Chapman was sent to town to get the mail for the camp. A fellow employee had previously told him he expected a letter with a check from a former employer and Chapman upon getting the letter, opened it, signed the name of his friend in endorsement and cashed it. He then went on a spree and did not return to camp until the money was gone. Later he confided to Mr. Beard, his employer, what he had done and asked him to fix the matter up to enable him to escape punishment. Mr. Beard, however, declined to be a party to compounding a felony and told Chapman to take his medicine. Chapman stands to pay dearly for his spree as he will likely be prosecuted on two counts, that of opening the letter, as well as forgery.

## OUTRAGES IN ONTARIO

Lennon, Ont., Nov. 2.—It is understood that the attention of the Attorney-General's Department at Toronto will be drawn to a series of outrages which have been perpetrated about the county of Middlesex during the past few weeks. The finding by Mr. T. J. Blakett, of Concession 134, London Township, of a valuable horse poisoned is but the latest of a series of crimes that have not only caused deaths of several animals, but have also impeded human life, as in the Casadoc case, where the horse and driver sheds of Mrs. W. Caulton were burned and the well on her farm poisoned.

Various affairs have created considerable excitement and the fact that in no case has the perpetrator been discovered only adds to the feeling throughout the country over the situation.

When you hear a man sneering at the local newspaper you can safely bet he don't spend his time making it better. They who don't see a benefit arising to the town from its newspaper, haven't as much sense as a cock oyster, and are of about as much value to a town as a ten-year-old delinquent.

## NO CLINKER

We supply rough lumber, slabs and kindling wood to residents of Frank. Slabs sawed to stove length delivered at \$1.50 a load.

## Frank News in Brief

### OTTAWA HOCKEY CLUB GETTING READY TO DEFEND CUP

Ottawa, Nov. 1.—The Ottawa Hockey Club had a meeting this afternoon, when their annual preliminary preparations toward the defence of the Stanley Cup were made. Last years officers, who piloted the club to one of the most successful seasons that it has ever had, were elected again and it was unanimously decided to welcome as many challenging teams as the profrustees see fit to send along during the coming season. The treasurer's report showed a slight deficit, the club having paid out record salaries. The men received from \$50 to \$1000 each. The money was considered well spent, however, and part of the returns from one of the Stanley Cup matches will wipe out the arrears.

Bad luck is only a man sitting on the corner or lounging around a red hot stove in the corner grocery store with a pipe in his mouth and expectoating tobacco juice looking to see how things turn out. Good luck is the pluck of a man with his sleeves rolled up, bustling like a lack to make things come out all right.

Chief Coal Mine Inspector Robert Livingstone has been holding examinations in Frank during the week for applicants for overmen in coal mines. There are a large number of applicants for fire boss, pit boss and mine manager's papers. We wish them all success.

When you want an article of merchandise, buy it of a reputable home dealer, that the profit may remain to enrich the community. Send your money abroad only for what you cannot purchase at home. Home talent, home labor home industry, home capital and home pleasures are things to be fostered, encouraged and patronized.

W. O. Tupley, representing the Vancouver Daily Province of Vancouver, B. C., paid Frank a visit this week and called at this office.

The C. P. R. train time has been changed since the end of October, the trains have been running on new time which can be seen on the bulletin board at the depot.

It is reported that Blairmore will have the electric lights going by the first of next week. They need 'em.

Mr. G. A. Jackson, of South Fork spent a few days in the Pass this week.

The Rocky Mountain Coal Company at Blairmore expect to be putting out cement by 15th inst.

Mr. H. J. MacDonald, of Calgary, has been in Blairmore, Alta. this week on a visit to Spence.

Misses Susan and Maude, of Blairmore, attended the Fitchmen's Ball at Macleod.

Detective Piper, of the R. N. W. M. P., spent a few days in the Pass this week.

Mr. Sparkes is having his new residence painted which will make a big improvement in the appearance of the structure.

Mr. Budd, of Blairmore, has a lot of new residences under construction in the Pelletier addition at Blairmore.

The Pelletier Brick Works are again at work supplying the demand for the famous Blairmore bricks.

As a dependent empire and general authority on the Arctic regions, Captain Bernier thinks that both Cook and Peary reached the North Pole. If that is so, Cook got there first and took the cake, or at least the icing off it.

Mrs. E. Price and J. W. Crawford are commencing the business of buying and selling pianos and organs. They have a few instruments on hand and may be seen in the old sample room, Central Avenue, Coleman. Address all letters to Box 11, Coleman, Alberta.

The latest census report for the province of Alberta shows that there are 30,400 school children in Alberta.

American farmers are looking into the Canadian West to inspect the harvest, with a view to purchasing land. The West is showing a nice line of goods this autumn. It is a favorable time for inspection.

It is worth a thousand dollars a year to have the habit of looking on the bright side of things.

Over 800 of the 15,300 million seedlings can be planted in the United States. The average all sold for the year, 1902, was 10,000. It is no wonder that the Canadian West is making vast headway.

An advertisement is to a merchant very much what sowing seed is to a farmer. It may take a little time for the results to become apparent, but they are sure to come. The wise man sows his seed.

George Scott, apparently with his good sense, was disappointed with this advertisement.

Taken altogether, American success in North Polar exploration and the anxiety of no less than seven thousand Britishers to accompany Captain Scott to the South Pole, clearly proves that the Viking spirit has not yet died out of the Anglo-Saxon blood.

Just as we go to press we hear of a very sad accident in town in which a little girl was drowned, but owing to the lateness of the hour we are unable to give any particulars.

J. E. Woods, of Pincher Creek, spent a few days in town this week.

Dr. Warlock, M. P. P., of Pincher Creek, was a visitor in Frank this week.
